## Foreword

There are momentous events taking place in the UK at present and, although I do not include our Autumn Auction programme in the same category, I think in banknote terms we might rock the boat a little.

We have another superb group of rare Indian material, India is doing a China, there has always been interest in this fascinating and historical series quite often from collectors outside India. We are now seeing a great upswing in the Indian domestic market, in my opinion long overdue and very welcome.

We have a truly stupendous group of Lebanon; another lovely series of banknotes but usually (if found at all!) seen in modest grade. The notes in this auction are lovely and from a wonderful source, given as a gift to a Greek musician by the Shah of Persia, Shah Pahlavi and his wife, Farah Diba. Several of the notes are unrecorded and we expect the group will cause a few ripples (tsunami, hopefully!) in the Lebanese and Syrian collecting fraternity. We have a collection formed by Doctor Yehezkel Shami of Iraqi, Jordanian and Libyan currency which represent many years of dedicated collecting, I hope the collection receives the attention it deserves.

There are numerous rarities to choose from, personally I love the Hudson's Bay £5 - doesn't look spectacular but it feels rare! East Africa, what can I say? Having established a market with our auction of Alan Pickering's collection (his Kenya is in this sale), we now have some of the rarest notes from this area I have ever seen and what beautiful notes they are. An issued George V 10,000 shillings could have bought downtown Mombasa, and a splendid 20 and 50 florins, large size and they really look like money should look - some of De la Rue's finest work in my opinion. And the grade! I doubt we will ever see a finer group.

As always we hope our friends will enjoy the catalogue and not of course forgetting our other catalogues: part II from the Legendary Ibrahim Salem collection and part II of the unrivalled Lou Manzi collection of English notes in addition to our general British sale. We hope there is something for all tastes and pockets and, if not, some notes just to enjoy. We certainly have. Please enjoy the catalogue and best of luck with your bids.

# END OF DAY 1

# DAY TWO COMMENCING AT 10 A.M. (LOTS 1193-2046)

# THE DR. YEHEZKEL (HEZI) SHAMI PH.D. COLLECTION OF BANKNOTES OF THE MIDDLE EAST 1920-1955

My "love affair" with obsolete banknotes was not " love from first sight", paper money had always an image problem, after all, it replaced the thousands year old Gold Standard that the people trusted and perhaps even loved. Thus, it is not surprising that it took many decades, and young collectors who grew up not knowing Gold Backed Money to overcome this aversion and start collecting banknotes. As for me, it didn't become the main focus of my proliferated collecting hobby until I was well into my middle age. In my boyhood, in the early 50's, as many (if not all) of my cohorts, I collected stamps. My early attraction to stamps was strongly associated and attributed to my late father Joseph Shami who was a long-time avid stamp collector of the British Empire issues with a strong focus on those issued by the British Authorities in the Holy land post WWI. In his childhood, toward the end of WWI (Dec. 11th 1917), he witnessed General Edmund Allenby (who was the Commander in Chief of the Egyptian Expeditionary Force during WWI), dismounting his horse at the gate of the Holy City out of respect to the historical significance of the City, saying "only the Messiah should ride into the Holy City", and entering Jerusalem on foot to assume British Rule of the city and land. This early memory and the fact that he was a 7th generation Jerusalem-born, cemented his focus on collecting those stamps.

However, me, the 8th generation Jerusalem-born, and the only one under British Rule, as enthusiastic stamps-collector as I was as young boy, it all dissipated in early adulthood and to no surprise my father kept going very strong without my help. My education path led me from the

Hebrew University in Jerusalem-Israel, to Canada in 1970, at the time you could still find in circulation G.VI. silver coins and as an instinct I started putting them aside, not sure why, and on one sunny afternoon in Vancouver B.C., as me and Eva (whom I married only few weeks earlier) were taking our daily walk, Eva spotted a coin shop, remembering my silver coins hoarding interest, Eva suggested "let's go in and see", and on that day my collecting interests got ignited all over again and this time, it was Coins. Collecting coins was perfect fit for me, as I didn't want to compete with my father who was still collecting stamps.

In 1974 I graduated with Ph.D. in Physiology from the University of British Columbia in Vancouver, and couple of weeks later we had our first son (out of three), and we were on the move again for my Post Doctoral training in Toronto. I have to admit that on those days, collecting was out, but soon after things settled down, almost a year later, on my lunch break walks, I noticed that in the vicinity of the downtown hospital at which I doing Post Doc. training, there were several Coin Shops, I went in introduced myself to the owners as a novice coin collector and got some initial guidance regarding Coin- Grading and collecting. My coin collecting interests mirrored my father stamps collecting interests with one exception - Imperial Russia Rubles, as a tribute to my maternal line heritage. My academic-scientific promotions and later Directorial/ Executive positions I held in the emerging Biotechnology Industry, provided the resources for the augmentation of my coin collection have been reached, and I had to decide whether to widen its scope, or move on to another collecting field.

So, I decided to simply to switch to collecting obsolete banknotes utilizing the same criteria I set for my coin collection and my father have set for his stamp collection. The most inclusive title for my collection is: Pre 1955 Obsolete Banknotes of the British Empire with emphasis on those issued by the semi independent entities of the "British Influence Sphere" in the Middle East.

The Banknotes listed in this Auction, are Part II of my Middle East collection and represent the Monarchies of the Middle East (Arabian Peninsula Monarchies are excluded). My numismatic attention was influenced mostly by the degree of proliferation of the Monarch effigy on the currency of his Kingdom. Employing this numismatic scale, the following is my rating: in first place is - King Faisal II of IRAQ, he is depicted on 38 different banknotes (P-13 to P-50 not including sub P type). Born in 1936 and assassinated in 1958. His First Issue banknotes (P-13 to P-21) was in 1939 (upon his father death King GHAZI), depicts him as a baby. These lovable banknotes were fondly labeled by collectors as "the Baby Notes". Second Issue 1944-5 (P-22 to P-23), depicts the King as a young boy, and the following issues depict him progressively as young teenager, older teenager, and finally two different portraits as a young man. The banknotes of Iraq listed here, are dotted with the numerous rarities in high grade, represent the most significant section of my entire collection. Close second is the Kingdom of Jordan followed by Kingdom of Libya, Iran and Ethiopia (Kingdom of Egypt was listed in 2017 Part I). In general, all the monarchs of the 20th

#### WWW.SPINK.COM

century, including those listed here, were rather enlighten and benevolent rulers, in comparison to the brutal dictators that replaced them. Thus collecting their banknotes is emotionally easy and comforting and perhaps nostalgic, as collecting British Empire banknotes, which comprise Part III of my banknotes collection.

I hope I managed to convey that I am attached to these banknotes, so, I decided to stamp their provenance link to me in conjunction with the grading process. I remember vividly their acquisition and their delivery to my hands, I studied them for few weeks, their numismatic profile as well as the geo-political background they represent, each note has a story that is composed of two parts, the numismatic/historic one which is fixed for generations to come, and the proprietorstory chapter (mine is told here) that will keep changing (rightfully so) as they pass from one collector to another. I hope that the banknotes listed here will end up in "loving collector homes" and maybe as a result of their stamped provenance, I will meet some of the new custodians and hear their numismatic biased story.

Best regards,

Dr. Yehezkel (Hezi) Shami Ph.D.

PLAYING WITH MONEY Robert Bracey RRP £25

£20 SPECIAL PUBLICATION PRICE

112pp ISBN: 978-1-912667-04-8

In the early twentieth century there was a revolution in board games. Children's games intended to teach morality were transformed into economic simulations aimed at adults. This book demonstrates how play and games reflect and shape our understanding of money, and explores the history of board games in the twentieth century. Why was a famous psychic so interested in the stock market? How did a feminist campaigner try to undermine capitalism with a game? And why has 'German game' become synonymous with a growing number of cafes all across the world dedicated to playing board games?

Playing with Money is published to coincide with an exhibition of the same name, which runs from 18th April 2019 to 29th September 2019 in Room 69a at the British Museum. Drawing on the museum's extensive collection of early print and ethnographic games and 20th century board games, the exhibition focuses on how games depict the economy and their role as educational tools.

## 2 SPINK'S ROLE AS AGENT

- 2.1 All sales undertaken by us either at auction or privately are undertaken either as agent on behalf of the Seller or from time to time, as principal if we are the owner of the Lot. Please note that even if we are acting as agent on behalf of the Seller rather than as principal, we may have a financial interest in the Lot.
- 2.2 The contract for the sale of the Lot will be between you and the Seller.
- 2.3 The contact of the safe of the Lot will be between you and the other.
  2.3 The Seller's safe of the Lot to you is subject to any terms and conditions, disclaimers or exclusions included with any promotional material or catalogue descriptions for the Lot, or otherwise notified to you by the Seller or us on their behalf.

## 3 BEFORE THE SALE

## 3.1 Examination of goods

You are strongly advised to examine personally any goods in which you are interested, before the auction takes place. Condition reports are usually available on request. We provide no guarantee to you other than in relation to Forgeries, as set out in clause 5.13 of these Terms and Conditions.

### 3.2 Catalogue descriptions

- 3.2.1 Statements by us in the catalogue or condition report, or made orally or in writing elsewhere, regarding the authorship, origin, date, age, size, medium, attribution, genuineness, provenance, condition or estimated selling price of any Lot are merely statements of opinion, and are not to be relied on as statements of definitive fact. Catalogue and web illustrations are for guidance only and should not be relied on either to determine the tone or colour of any item. No lot shall be rejected on the grounds of inaccurate reproduction. No lot illustrated in the catalogue and online shall be rejected on the grounds of cancellation, centring, margins, perforation or other characteristics apparent from the illustration. Estimates of the selling price should not be relied on as a statement that this price is either the price at which the Lot will sell or its value for any other purpose.
- 3.2.2 Many items are of an age or nature which precludes their being in perfect condition and some descriptions in the catalogue or given by way of condition report make reference to damage and/or restoration. We provide this information for guidance only and the absence of such a reference does not imply that an item is free from defects or restoration nor does a reference to particular defects imply the absence of any others.
- **3.2.3** Other than as set out in clause 5.13, and in the absence of fraud, neither the Seller nor we, nor any of our employees or agents, are responsible for the correctness of any statement as to the authorship, origin, date, age, attribution, genuineness or provenance of any Lot nor for any other errors of description or for any faults or defects in any Lot. Every person interested should exercise and rely on his own judgment as to such matters.

### 3.3 Your Responsibility

You are responsible for satisfying yourself as to the condition of the goods and the matters referred to in the catalogue description.

- 3.4 Extensions Stamps only
  - 3.4.1 If you wish to obtain an expert opinion or Certificate of Authenticity on any Lot (other than a mixed Lot or Lot containing undescribed stamps) you must notify us in writing not less than forty-eight hours before the time fixed for the commencement of the first session of the sale. If accepted by us, such request shall have the same effect as notice of an intention to question the genuineness or description of the Lot for the purposes of clause 5.13 (Refund in the case of Forgery) of these Terms and Conditions and the provisions of clause 5.13 (Refund in the case of Forgery) shall apply accordingly.
  - 3.4.2 Notice of a request for an expert opinion or Certificate of Authenticity must give the reason why such opinion is required and specify the identity of your proposed expert which will be subject to agreement by us. We reserve the right, at our discretion, to refuse a request for an expert opinion or Certificate of Authenticity including (without limitation) where the proposed expert is not known to us.

- **3.4.3** If we accept a request for an expert opinion or Certificate of Authenticity we will submit the Lot to the Expert Committee. You acknowledge and accept that the length of time taken by an Expert Committee to reach an opinion will vary depending on the circumstances and in any event is beyond our control.
- 3.4.4 We will not accept a request for an extension on account of condition. Any Lot described in the catalogue as having faults or defects may not be returned even if an expert opinion or Certificate of Authenticity cites other faults or defects not included in the catalogue description, other than in the case of a Forgery.
- 3.4.5 Should Spink accept a request for an extension under the foregoing provisions of this paragraph, the fact may be stated by the Auctioneer from the rostrum prior to the sale of the Lot.
- 3.4.6 It should be noted that any stamp accompanied by a Certificate of Authenticity is sold on the basis of that Certificate only and not on the basis of any other description or warranty as to authenticity. No request for an extension will be accepted on such a stamp and the return of such a stamp will not be accepted.
- 3.4.7 If you receive any correspondence from the Expert Committee in relation to the Lot, including but not limited to a Certificate of Authenticity, you must provide us with copies of such correspondence no later than 7 days after you receive such correspondence.

## 4 AT THE SALE

## 4.1 Refusal of admission

Our sales usually take place on our own premises or premises over which we have control for the sale, and we have the right, exercisable at our complete discretion, to refuse admission to the premises or attendance at an auction.

## 4.2 Registration before bidding

All bidders must be registered either by completing a registration form or creating an account online. Please be aware that we usually require buyers to present identification before making a bid at auction, undergo a credit check or provide a trade reference.

If you have not bid successfully with Spink in the past, or you are registering with us for the first time, we reserve the right to require a deposit of up to 50% of the amount you intend to spend. Such deposit will be deducted from your invoice should you be successful. If you are unsuccessful at auction, your deposit will be returned by the same means it was paid to Spink.

Some lots may be designated, prior to the auction, as "Premium Lots", which means a deposit may be required before placing a bid on the item for sale. Information will be posted on our website in such an event.

### 4.3 Bidding as Principal

When making a bid (whether such bids are made in person or by way of telephone bids operated by Spink, commission or online or email bids), you will be deemed to be acting as principal and will be accepting personal liability, unless it has been agreed in writing, at the time of registration, that you are acting as agent on behalf of a third party buyer acceptable to us.

### 4.4 Commission Bids

If you give us instructions to bid on your behalf, by using the form provided in our catalogues or via our website, we shall use reasonable endeavours to do so, provided these instructions are received not later than 24 hours before the auction. If we receive commission bids on a particular Lot for identical amounts, and at auction these bids are the highest bids for the Lot, it will be sold to the person whose bid was received first. Commission bids are undertaken subject to other commitments at the time of the sale, and the conduct of the auction may be such that we are unable to bid as requested. Since this is undertaken as a free service to prospective buyers on the terms stated, we cannot accept liability for failure to make a commission bid. You should therefore always attend personally if you wish to be certain of bidding.

#### **On-line Bidding** 45

We offer internet services as a convenience to our clients. We will not be responsible for errors or failures to execute bids placed on the internet, including, without limitation, errors or failures caused by (i) a loss of internet connection by either party for whatever reason; (ii) a breakdown or problems with the online bidding software and/or (iii) a breakdown or problems with your internet connection, computer or system. Execution of on-line internet bids on www.spink.com and Spink Live is a free service undertaken subject to other commitments at the time of the auction and we do not accept liability for failing to execute an online internet bid or for errors or omissions in connection with this activity.

#### Telephone Bids 4.6

If you make arrangements with us not less than 24 hours before the sale, we shall use reasonable endeavours to contact you to enable you to participate in bidding by telephone, but in no circumstances will we be liable to either the Seller or you as a result of failure to do so.

#### 4.7Currency Converter

At some auctions, a currency converter will be operated, based on the one month forward rates of exchange quoted to us by Barclays Bank Plc or any other appropriate rate determined by us, at opening on the date of the auction. Bidding will take place in a currency determined by us, which is usually sterling for auctions held in London. The currency converter is not always reliable, and errors may occur beyond our control either in the accuracy of the Lot number displayed on the converter, or the foreign currency equivalent of sterling bids. - 2. Where Lots are sold using the Auctioneers' Margin Scheme to UK VAT-registered businesses, the VAT on Buyers' Premium is not recoverable as input tax. Upon request on sale day, we will issue invoices that show VAT separately on both the Hammer Price and the Buyer's Premium. This will enable VAT-registered businesses to recover the VAT charged as input tax, subject to the normal rules for recovering input tax.

### ii. Zero-Rated Lots

Limited Categories of goods, such as books, are Zero-rated (o) for VAT in the United Kingdom. Such Lots are offered under the Auctioneers' Margin Scheme. In these circumstances no VAT will be added to the Buyer's premium.

Lots which bear the Omega symbol ( $\Omega$ ) are subject to VAT at 20% on the Hammer Price and on the Buyer's Premium. This VAT is payable on items imported from outside the EU. In these cases we have used a temporary importation procedure, which in effect means that the point of importation is deferred until the Lot has been sold. At this point the Buyer is treated as the importer and is liable to pay the import VAT due. We will collect the VAT from you and pay it to HM Customs and Excise on your behalf.

#### v. Investment Gold Lots

Lots marked (g) in the catalogue are exempt from VAT on the Hammer Price and are subject to VAT at 20% on the Buyer's Premium. A refund of VAT charged on the Buyer's Premium can also be made on receipt of proof of business as a collectibles dealer outside of the EU.
